Jira Project Tracking Summary

Project: College Management Portal
Tool Used: Jira (Team-Managed Project)
**Methodology:** Agile Scrum

- **Project Setup:**

  - Created a **Scrum-based Team Project** in Jira named *College Management Portal (CMP)*.

- **Epics Created:**

  - Student Management Module
  - Faculty Management Module
  - Exam & Results Module
  - Fee Management Module

- **User Stories Added:**

  - Defined user stories under each Epic.
  - Examples: "Register new student", "Add faculty profile", "Enter exam marks", etc.

- **Sprint Planning & Execution:**

- Created **Sprint-1**, added relevant stories.
- Defined start/end dates and started the sprint.

- **Task Tracking:**

  - Moved tasks through **To Do → In Progress → Done**.
  - Used **Scrum Board** to visualize real-time progress.
